THE CITY.

LOCAL BRIEFS.

——Vague rumors are afloat.

——Revenue receipts yesterday $323, 40.

——"He has come back to me baby mine."

—— Burn out your chimnies the next wet day.

——Mr. J. C. L. Harris represents the Solictor of the Second District.

——Auditor Love was registered in Charlotte a few days since.

——We learn from the Charlotte Observer that Judge Kerr's health is improving.

——Mr. C. J. Foust formerly a clerk for Petty and Jones has opened a store in Winston.

——They say Judge Tourgee will be editor of a Republican paper soon to be started here.

——Gen. P. B. Hawkins, of Louisburg, is in the city. Everything is getting along well in Franklin.

——The Bradley Fertilizer Co., paid the State Treasurer $500 yesterday for a license to sell "Sea Fowl Guano" in this State for the year 1879.

——We are requested to state that Judge Strong's lecture for to-night will be post-poned 'till to-morrow (Saturday) night.

——At the University of Maryland the following North Carolinians were graduated: John H. Lacy, son of Rev. Dr. Drury Lacy of this city, Henry Irwin Clarke, Julian M. Baker and H. H. Brooks.

——From the Waynesboro Tribune we learn that W. A. Turk, who is now Travelling Passenger Agent of the Central Short Line, was in Waynesboro last week, and has left for Jacksonville, Florida. His many friends in Raleigh may hope to see him here next summer.

——Parties from the country tell us that the whole country is literally alive with every conceivable kind of vehicle moving guano from the city and all the depots on the line of the railroads. Our people seem determined to have the "cotton stimulent" let it prove to be what it may.

——The Farmer and Mechanic generally manages to get all the news agoing. It has the following in yesterdays issue. We hear an ugly story of a young man from Franklin county who was expected to enter the commission business in Raleigh on the 1st of March, and obtained $1,300 with which he disappeared. The name is withheld for the present.

——The General Assembly just adjourned, passed an act, as is well known to prohibit the pooling of freights by railroad companies, and to make the giving or taking of a rebate a misdemeanor. A meeting of representatives of the the different railroads having lines in this State, has been called to take place at Raleigh on the 24th inst., to consider what is to be done by the companies in view of the enactment of this law. Charlotte railroad men, it may be added, treat the law as a huge joke on the Legislature so says the Charlotte Observer.

——Bill Arp in the Atlanta Constitution soliloquizes as follows: This balmy weather fills all the chambers of the soul with music that is never heard, with poetry that is not expressed. The very air is redolent with love and peace. Turnip greens are running up to seed. The plum tree is in bloom; the busy bee is sucking honey from their fragaant blossoms, and by and by will be stinging the children as usual. The south wind is breathing upon to violet banks. Alder-tags hang in graceful clusters upon their slender stems. Jonquills in a yaller strut and shellots are about right for the skillet. The little silversides have opened their regattas. The classical robin has ceased to get drunk on chaney berries, and the ferocious hawk catches about one a day from our earliest broods. Everything is lively.

Over the meadow the new-born lams are skipping,
Over the fields the little boys are ripping.

CRIMINAL MATTERS.—Magistrates and others having business with John H. Collins, Solicitor of the 22nd District, are authorized to consult Mr. J. C. L. Harris, who represents the Solicitor in all matters in the Superior Court of Wake county. The office of Mr. Harris is south of the Courthouse in the old Sentinel building

PERSON STREET DIME PARTY.—The dime party for the benefit of the Person street parsonage, last night, was a very happy affair. It was estimated that 150 persons were present. The receipts will approximate $50. Encouraged by last night's success the entertainment will be repeated to-night at the same place.

INSANE ASYLUM.—The first meeting of the Board of Directors of the Insane Asylum under the new law, will meet in this city on 1st. of April. The Governor is now ex-officio President of the Board and the Board is required to to meet quarterly, instead of annually under the old law. The law reduces the number of Directors to seven instead of nine as at present, but the present Board are to remain in office until the expiration of the time for which they were appointed, the 1st. of March, 1880. There are other changes in the law, which we propose to notice after the meeting of the board.

The Duello.

DESPERATE AND FATAL RE-ENCOUNTER.
BOTH PARTIES KILLED.

The fifth ward, was yesterday the scene of one of those desperate engagements in which both parties evidently meant business and gave no quarter. They had no seconds to settle the difficulty after the first "exchange of shots" but fought to the death. Two beautiful and valuable game cocks, not having the fear of the law before them and disregarding a scorn foot fence that seperated them, got to each other, no one to witness the scene and all that is known of the fatal meeting is the signs of battle all around the dead bodies of each spurred through the head. Where is the law against carrying concealed weapons.

THE SHOCKOR IRON WORKS.—Mr. Chas. H Talbott, of Richmond, the business member of these famous works is in the city. In a conversation with him yesterday we learned that this mamouth engine manufactory was begun sixty years ago. The present senior of the firm of Talbott & Sons, Mr. Chas. Talbott, succeeded to its ownership in May, 1838, and has been the supervisor of the mechanical department ever since. Not a piece of machinery is made that does not pass under his eye. Hence the wide reputation of the "Talbott engine," which is so generally used in this State. The works keep over two hundred workmen employed the year through and they turn out over three hundred engines annually. The junior member of the firm has recently invented a spark arrester that consumes its own sparks. It is said to be the best invention of the kind now in use.

SUPREME COURT.—Court opened at 10 o'clock yesterday morning; all the Justices present.

The consideration of appeals at the end of the docket was resumed and causes disposed of as follows:

Edward Kidder vs. T. C. Mclethenny, from Brunswick; continued to next term.

W. J. Rogers vs. J. W. Grant, administrator, from Northampton; taken up, out of the regular order, by consent, and argued, by Mullen & Moore, and W. C. Bowen for the plaintiff, and R. B. Peebles and Reade, Busbee & Busbee for the defendant.

J. S. Grant vs. W. H. Morris & Sons, from Northampton; was continued by consent of counsel.

J. O'Connor et. als. vs. W. H. Harriss et. als. from Northampton; was continued by consent of counsel.

J. R. H. Carmer vs. E. B. Evers et als. from Wake; argued by Armistead Jones for the plaintiff, and Reade, Busbee & Busbee for the defendant.

Samuel Calvert vs. N. Peebles, from Northampton; was argued on Wednesday but omitted in yesterday's proceedings; Mullen & Moore and Willis Bagley for the plaintiff, and R. B Peebles for the defendant.

Court adjourned until 10 o'clock this morning.

THE STATE GEOLOGIST.—The public don't understand exactly about this important office. The best information we could get was a mere conjecture. It is simple enough now. We learn it all from a Stetesville paper, which contains more information than any paper going anyway. "He has not been removed; neither has he been reappointed. The Constitution prohibits the impairment of any State officers prerogatives during the term of his service, save in one way, to-wit, by the abolition of the office. The office of State Gologist was not abolished; the operations of the survey were transferred from the supervision of the Board of Education to that of the Board of Agriculture. But as we happen to know Prof. Kerr, the present State Geologist, placed his resignation at the disposal of Gov. Vance long before the late Legislature convened, but was advised to withhold it; at any rate until after the completion of work in hand. That this work should be completed, and the results of four or five years work (already in manuscript) should be published, seemed a self-evident proposition, as much as to the State, which ordered the work, as to Prof. Kerr, who has been a zealous and incessant worker in behalf of the State, let men say what they will! We will mention further that we have heard Prof. Kerr declare repeatedly and unmistakably that the hour which witnessed the completion of the work in hand, and the publication of his Reports, should also mark the date of his resignation regardless of terms of service.

It is his wish to complete these matters at the earliest moment; possibly within six, certainly within twelve months. For our part we would regret to see it hurried or left incomplete. like the Department of Agriculture, the Geological Survey does its work not merely for the present hour, but for the future. And the future will reveal the fact that our mistake has been not in spending $5,000 a year for Geological research, but in not spending a larger sum to thoroughly unmask every feature of our grand old commonwelth to the end that she might have been sooner appreciated. Pennsylvania has twenty Geologists carefuly examining every nook and corner of her surface, at a cost of $100,000 for the past year alone. Georgia has eight Geologists surveying her counties in regular order from east to west. Yet how much greater need has our mineral-veined, soil-twisted old North State for such work!

Perhaps It Is a Unit.

Wash. Post.

It has been asserted and persistently reiterated in Republican organs that the demand for the repeal of the law that authorizes supervision of elections by partisan officials was not indorsed by conservative Democratic leaders.

Now that Mr. Bayard and Mr. Randall have both taken occasion to publicly declare their full and earnest approval of this demand, and to impress on their political associates to the duty of standing by it to the bitter end, the Republicans will perhaps admit that the Democratic party is a unit on the important question.

Sale of the New York World.

It is said that the New York World has been sold to George W. Childs, of the Philadelphia Ledger, who will take possession of it on the first of May, and make a clean sweep of the present editorial department. Mr. Childs so informed his friend, Paul Du Chaillu, the explorer, who told the informant of the representative of the Post.

Another Wonderful Invention.

Galena Corr. Sigourney (Iowa) News.

I desire to give your readers a partial description of a recent invention of a steam engine by a mechanic of our town, which bids fair to supersede every steam engine now in use. The inventor, Mr. Smith, is a ingenious German mechanic. The advantages he claims over the ordinary one is the continuous application of the expansive force of steam, utilizing all its power. Then the mechanical simplicity of construction—no steam-chest, no piston, no crank. The motion is direct on the main shaft. It is simple, compact, and of great strength, and will not cost more than one-third per horse-power as much as the old style. He brought his model over to the elevator, last week, and attached it to the boiler, and away it went at a 2:40 whirl. A slight move of a lever, and the motion is reversed, and away it goes on the other tack.

Triumph For Tilden.

N. Y. Tribune.

Mr. Randall's nomination for Speaker of the House of Representatives is without doubt a triumph of the Tilden element in the Democratic party, and a real reinforcement for Mr. Tilden himself. Whether the latter had much to do with the contest or not, Mr. Randall will be in a position during the next two years to be a powerful friend to the next Democratic candidate for the Presidency, and there is little question that the new Speaker holds amicable relations with the Democratic Claimant.

The Policy to Pursue.

New York Sun.

The effective method of wiping out all this objectionable legislation is by passing the bills as originally passed, and then standing firmly on the ground. Then we shall see if the fraudulent President will assume to veto appropriations for carrying on the Government, merely because Congress may see fit to adopt a mode heretofore largely practiced by the Republicans for repealing objectionable sections of the Revised Statutes.

THE STATE.

SCANDAL IN HIGH LIFE

Winston Sentinel.

The good people of Lexington are very much excited over a scandal in high life in their midst, which has culminated in a suit for abduction, seduction and breach of promise, with damages laid at $25,000. Miss Sallie Hillyard, of Lexington, a very handsome girl of some seventeen years, had received some marked attentions from her cousin, Alfred T. Hargraves. Some time since he sent her to Charlottsville, Va., and followed himself in a few weeks, from thence he carried her to St. Louis, and to Texas. It appears that another young man was travelling with them, and in Texas, gave this young man $25 and sent him with Miss Hillyard to St. Louis, telling them that he would follow in a few days. They went to St. Louis but Hargraves didn't, and it took but a few days for them to get out of money. The young man who had charge of the girl wrote home and got some money; and after paying expenses they had enough left to get to Greensboro. From there the young man walked home, and money was sent to the girl, who, after many trials and tribulations arrived at home, and has brought suit against Mr. Hargraves. The fact that the parties belong to one of the best and most wealthy families in the county gives it considerable notoriety. The best counsel in the State has been employed on both sides, and a bitter fight may be expected.

Trouble in a Graveyard.

Correspondence of the News.

ROWAN CO., March 14.

We have a very singular circumstance to write you that took place at Liberty Church in Morgan's township, last Tuesday, the 11th. In the past two years there has been a new Methodist church built on the Stokes Ferry road, one mile and a quarter from Salisbury, and last fall the trustees bought a plat of ground for a graveyard; after it had been cleared off, it was then made known that all persons who desired to bury their dead they were at liberty to do so. Last Monday Isaac Goodman's little infant died, only six months and three days old, and he desired to have it buried in the graveyard at Liberty, for two reasons: 1st, that it was a church graveyard and, second, that he had furnished a lot of timber to build the church. So Mr. Goodman sent to the trustees of the church, and two of them selected a spot to dig the grave. At 3 o'clock, the hour appointed to bury, the corps came, and 40 or 50 people were present when Joe Eagle, a member of the church and the same man that had proclaimed it a free burying ground to all, then and there forbid Mr. Goodman to bury his infant there, declaring that if he that he (Eagle) would dig it up and remove it, which caused the greatest excitement that has ever been seen or known in this county. We do not believe there was a half a dozen persons but what was weeping, praying, or shouting. There was a heavy thunder cloud gathering, the people dispersed, and the little corpse was taken to a neighbor's house and there kept over night and buried in another graveyard next day at 10 o'clock, the grave at Liberty is still open, and is a memorial against that bold bad man who was so enraged that he looked more like a demon than human. With clenched fists, and black and pale in his face with madness, he spoke with such rage and force that he was heard from a quarter to a half of a mile. Now this bad man is a great boaster of his religion, he has claimed many a time that he was like Joshua of old, "as for him and his house they will serve the Lord, let others do as they may." Heaven save the man, for I have never heard of Joshua forbidding the burial of a little infant; or have we ever heard from the word of God that Joshua had a pair of steelyards that was condemned by the laws of his country and sold to his neighbors by them. MEM.

Bismarck and His Purposes

Washington Star.

Bismark may justly be styled the champion of the republican cause in Europe, It was due chiefly to his efforts that France threw off the yoke of Napoleon III. and became a republic. He scarcely less successful at home it being his method to make republicanism popular by making monachy detestable.

The President's Message.

Baltimore Sun

The President's message, which was sent in to the two houses of Congress yesterday, was noticeable not only for its extreme brevity, but also for the significant suggestion that the country would be well satisfied if the present session of the National Legislature were cut according to the same pattern

Vanderbilt Suit Closed.

The long and tedious contest among the heirs of Commodore Vanderbilt was closed yesterday by the surrogate deciding in favor of William H. Vanderbilt, and that his father was perfectly sane. In the case of Cornelius against William H. Vanderbilt, a special jury will be struck to-day.

What it would Do.

N. Y. Star.

THE Chicago Times announces that in a Presidential contest between John Sherman and Hendricks, Blaine and Thurman, it would support the Republicans, but that as between Tilden and Grant it would infinitely prefer Tilden. This is what is styled "independence." Freely admitting the Times' wonderful and even profligate enterprise, and also conceding all it claims in the way of circulation, we do not believe it could influence a thousand votes in the next Presidential contest. It is, as it desires to be considered, nothing but a "news-gatherer."

A NEW HYMN BOOK.—We have examined the Hymn-Book recently issued, entitled "Calvary Selection of Spiritual Songs," and are pleased with the refreshing variety of hymns, and the carefully studied adaptation of the same to the tunes. It meeets a long-felt want in the churches, viz., a book that shall be equally good for choir use or congregational praise. The general appearance of the book is neat, the music distinctly printed, and the arrangement of hymns and subject of hymns unusually fine, quite out of the ordinary routine. THE SOUTHERN STUDENTS' HAND-BOOK.—This contribution to our School Literature differs from all the so called "Southern Speakers" heretofore printed, in this:—that its matter is exclusively of Southern origin. But it makes no attempt at a complete survey of Southern oratory and literature, its chief aim being to represent, as fully as circumstances permit, the "New South" in oratory, dialectic, poetry and general literature, and omitting the hackneyed pieces which for more than half a century have done duty in all the Readers and Speakers in the land, as representative of the "Old South," thus presenting to our Schools a fresh and interesting compilation, illustrative of Southern life, sentiment and thought in their best phases, during the exciting period through which the States have recently passed. THE MESSAGE—DOCUMENTS AND ELECTION LAW—MUSIC FOR BLACKBURN—WHEN WILL IT ADJOURN?—VANCE—RANSOM—SCALES—ARMFIELD—THE QUIET MAN AT THE EAST DOOR—AND SO FORTH.

Correspondence of the News.

WASHINGTON, D. C., March 19.

PRESIDENT'S MESSAGE.

The Presidents message was read today. It was brief, briefer, briefest. When the reading was concluded in the Senate, Gov. Whyte, the new chairman of the committee on printing, moved to print 3,000 copies. Gov. Whyte said it was the best message that ever came from a Republican President, and he was in favor of disseminating it. Senator Conkling came up to the desk, where Judge Thurman was looking anxiously over the message, and said, "well, that is the ablest State paper I ever saw."

ACCOMPANYING DOCUMENTS.

Accompanying the President's message are estimates from the Secretary of the Treasury of the money needed for the army and the legislative, executive and judicial braoches of the government, the same as those submitted as the opening of the last session, with the exception of the items provided for at that session. The last Congress made provision for the Military Academy at West Point, and for fortifications and argument. This leaves, according to the estimates, $28,340,500 yet to be appropriated for the support and maintenance of that branch. None of the legislative, executive and judicial appropriations were provided for even in part. The estimate for these expenses is $16,520,601.91. To these appropriations are also to be added the item for court expenses, which is generally placed in the sundry civil bill, but which was left out of that bill at the last session. The estimate for these expenses is $3,000,000.

THE ELECTION LAW.

Leading Democrats of both houses have concurred in the declaration that they will be satisfied to retain the provision in the election laws for the appointment of supervisors of election of the authority for the appointment of deputy marshals with the power to arrest is struck out.

BLACKBURN SERENADED.

The serenade to Mr. Blackburn tonight was an elegant affair, and great enthusiasm prevailed. The gallant Kentuckian has not suffered by his defeat.

ABOUT ADJOURNMENT.

I asked a member of the House what he thought would be the length of the session, and he said not over six weeks. A senator soon afterwards remarked that Congress could get through in three weeks. My own judgment is that no one knows anything about it.

SENATOR VANCE.

Ex-Governor Vance. As he passed up the aisle to his seat after receiving the finishing touch to make him a United States Senator, numerous complimentary remarks were made about him. One of the abiest and clearest thinking members of the Washington bureau of correspondents said: Vances genius wit and statesmanly ability will soon raise him high on the roll of distinction among the great men of the present age.

VANCE AND RANSOM.

The old North State may well feel proud of her Ransom and Vance as able representatives in the highest branch of the National Legislature. As an appreciation of their north as statesmen they have been honored by recognition on the most important committees in the Senate. Ransom chairman of the committee on railroads and also serves on Commerce, Printing and Library Committees. Vance chairman of committee on Enrolled Bills and member of the Naval Privileges and Elections and District of Columbia committees. Ransom is regarded as the leading Senator from the South. He would have been on the Judiciary committee but yielded to his friend Lamar.

VANCE, SCALES AND OTHER GENERALS.

When the members from Maryland, Virginia, North Carolina and South Carolina were sworn in we noticed as they stood in line in front of the Speaker three brigadiers and one full general. On the right flank stood Gen. Vance, on the left, old Joe Johnson, in the centre, Hunton, Scales and three Colonels and not one private.

WHO IS THE QUIET MAN AT THE EAST DOOR?

Before the hour for the call of members there sat a man near the east door, a few seats from the aisle, who looked lonely and quiet, but bore an air of dignity that commanded attention from the reporters gallery. The word soon passed around, who is the man of rotund form, iron gray whiskers and rather bald head? Is he a member, said one. I guess he is, was the reply. No one could place him, either by name or State. At last, when North Carolina was reached, he answered to the name of

R. F. ARMFIELD.

"Ah" says Copeland, of the Brooklyn Eagle, "that's the man that beat Robbins, there is something in him." Ramsdal, of the Philadelphia Times says: "I'll bet he is a good one; look at that fine head there is plenty of business in that cranium of a fine quality." Hudson, of the Boston Hearald, said: "I see from the plain phrenological outlines of his head that he is a person of quick, active and comprehensive mind." Fishback, of the St. Louis Republican remarked:

HE WILL COME TO THE FRONT

if his modesty does not keep him back. We could but add to the host of other compliments to the tar heel member, that if he sevred his country as well and faithfully in Congress as he did on the many blooded battle fied of the late war which he passed through is all that can be said: The North Carolina delegation are all gentleman of fine ability and ever vigilant to the wants and interest of their people. We protect their career in the future will be as useful as in the past.

HUSSEY & JORDAN, Prop's.

JOHN B. HUSSEY, - Editor.

Montgomery Blair is quoted as authority for the statement, that Gov. Hendricks favors for 1880 the nomination of the old ticket of Tilden and Hendricks.

SPIER WHITAKER, ESQ., Solicitor of Halifax Inferior Court has resigned, and a meeting of the magistrates of that county has been called, for Tuesday next, to consider the propriety of abolishing said court.

THE magistrates of Warren county, last week, abolished the Inferior Court of that county, the act extending the jurisdiction of magistrates, having rendered the expense of an Inferior Court unnecessary.

BEAST Butler has commenced his Gubernatorial campaign in Massachusetts very promptly. His latest movement is the publication of a book skillfully recording the leading events of his life with a view to influencing voters in every portion of the country. Other publications will follow.

THE moral taught by the suit of Mrs. Oliver against the octogenarian defendant is, that if any man desires to be a senator and, and at the same time, enjoy immunity from the arts and fascinations of grass widows, he should not try to reach the Senate on the sunny side of eighty.

SAD stories are told about the state of affairs in Memphis. In addition to the financial ruin of the city and the public health, every man in the city who can do so is begging, saving and scraping money together with which to get away next summer, when it is feared the yellow-fever will rage again with redoubled fury.

A bill to prevent treating has been introduced in the House at Springfield Mass. It is proposed to attach a penalty from $5 to $16 to the pernicious practice of "setting up the drinks all around," the proceeds of the fines to go to the School Fund; while candidates for office may be fined $50 or imprisoned twenty days for offering to treat their constituents.

THE two Pacific railroads propose to furnish free transportation to a Philadelphia committee which is arranging to visit San Francisco for the purpose of welcoming Gen. Grant back again to his home, his grateful country and a third term of the Presidency. The Grant movement seems to be assuming shape, but it is not "booming" so much as it was.

AN early occupation of Egypt by the English and French troops is possible. Those governments hold an extensive mortgage on that country, and assume some direction of its internal affairs. They recently informed the Khedive that he must re-appoint one of his deposed ministers, Nubar Pasha, or take the responsibility of a refusal. He has taken the responsibility and calmly awaits the issue.

THE unusual brevity of Mr. Hayes' forthcoming message may be due to the difficulty he experiences in expressing his feelings under such peculiar circumstances. To see the Democracy in power in both branches of Congress, and to reflect that but for the crimes which placed him where he is, the same party would control the Executive department with its 104,000 offices, are circumstances not calculated to inspire a long or luminous State paper.

THIS Southern negro colonization scheme is a new phase of Radical philanthropy, even worse than the Freedman's Bank swindle; for while that only robbed the poor negro of his hard earned savings to enrich the scoundrels who, under pretence of especial friendship for the colored people, engineered the stupendous fraud, this last device not only takes the last dime out of the negro's pocket, but breaks up his home, deprives him of employment, and leaves him and his helpless family among strangers to suffer and starve.

WITH decorum befitting the occasion, the first Democratic Congress for eighteen years has quietly commenced its work, and will soon settle down to an earnest effort to perform all the duties which the people require at its hands. Its manner of doing business will soon put to rest forever the Republican calumnity that the interests of the country connot safely be trusted in Democratic hands. If there were any truth in such a statement, it would furnish an unanswerable argument against popular government, proving that the majority should not rule.

ANOTHER International Six Day's Walking Match is being arrangeed. to take place at Gilmore's Garden, New York, from the 5th to the 11th of May, The first prize will be a champion belt more expensive than the Astley trophy. The belt and $1 500 will be awarded to the man who walks the greatest number of miles in 144 hours. The second prize will be $1,000, and the third $500. The entrance fee will be $100. O'Leary will enter the race. Ennis will also enter if he does not go to England, and so will Harriman and Guyon. It is expected that Vaughan and Crossland, two of the best six day walkers in England, will also compete. The amount of money wagered in the New York pool rooms on the recent walk was $200,000. Walter, Harriman's backer, won $12,000, and Sir John Astley is credited with having scooped in $25,000.

CHINA will soon have established diplomatic relations with all the principal nations of the earth. Chin Lan Pin, the Chinese Embassador to the United States, is making preparations to proceed to Spain for the purpose of establishing a legation at Madrid After establishing a legation at Madrid, he will go to Peru for the purpose of establishing a legation at Lima.

The Constitutional Convention of California has ended in failure. It was in session one hundred and fifty-seven days, cost the State one hundred and fifty thousand dollars more than was appropriated, and completed a constitution which the people of the State never will adopt. The delegates generally were incompetent.

IT is a fact, though probably not very well known on this side of the water, that gas for illuminating proposes has never been introduced into the British Museum building. The managers have long seen the need of some means of lighting the reading room especially but they have always been in dread of the chances of fire and explosion which might result from the introduction of gas. They have now, however, lighted the reading room with the electic light, using eight Sablochkoff candle, of all aggregate 4800 candle power, the patents for which are generated by a double Gramme machine; which, with its metor, is located in a detached building. By this means satisfactory light and entire safety from fire are at once attained.

ON THE first of next month an opportunity will be given to try experimentally a kind of Government Savings Fund. The "certificates of deposit" of the denomination of ten dollars, to be issued then and thereafter, bear interest at the rate of four per cent. per annum, but they do not fully answer the purpose of a savings fund, because they are not directly redeemable, but may be converted into four per cent. bonds. Ten dollars having been invested in a certificate, the holder to realize upon it, must sell it at its market value, or having five of them, convert it into a bond, and sell that at its market value. The certificate will, however, be very useful to those who desire to buy bonds out of small savings for a permanent investment. They can by means of the certificates gain four per cent. interest on each ten dollars saved, instead of hoarding the money without profit to themselves until they obtained fifty dollars. There is besides a real advantage to the poor man in having his small savings put where, with perfect security he can recover, there is still a little obstruction in the way of his doing so. This prevents him from wasting his savings.

IT is time to look at both sides of the walking mania, that is if a mania can have two sides at all. "A well-known physician" of Boston writes to the Journal of that city rather savagely about one walking exhibition which he has seen. It was that of Miss Lulu Bloomer — pleasing, but probably a pseudonym—who was "dragged off her couch every ten minutes to walk her quarter mile." The Doctor reports that she was in a "wretched state of weakness;" that her trainer had to support her; deathly pale was her face; idiotically expressionless were her eyes; extreme exhaustion was indicated by every motion. No wonder the good physician was in a passion about it, and wrote his communication at once. The hall, as he says was ill-ventilated; the atmosphere absolutely stifling, and the sight generally, sickening. But the authorities bestirred themselves; they sent the city doctor down to investigate; and they think of stopping such "senseless displays altogether." Over in Newark, on Sunday, there was a similar exhibition, the poor woman falling into a dead faint, and being obliged to abandon the undertaking. This is not by any means the first instance of the kind, and we shall have others, unless the pedestrian mania is quieted, especially among the women. Walking is a very good thing, but a person who undertakes a long-distance match against time without the necessary physical stamma, will be sure to fail to get into all sorts of trouble, either physical or pecbniary.

FORGING telegrams is a somewhat dangerous business, but it is a mistake to suppose that the loss caused by them must accrue solely to the sender or receiver. The Baltimore American cites the case, the tendency of which is to show that the telegraph company which transmits such a dispatch is responsible for the damage caused by it. "Some years since," it says, "a dispatch was sent to Messrs. Haligarten & Co., of New York, signed William Fisher & Son, Baltimore (a singular coincidence in names), which ordered the sale of several thousand shares of Marietta & Cincinnati stock. The market was similarly demoralized, but upon the receipt of the first telegraph report of what sales had been made by the New York firm for the Baltimore house promptly notified their friends that something was wrong. The New York Stock Exchange took the matter up, offered a reward of $10,000 for the recovery of the forger and his accomplices, and canceled all transactions based upon the order. No one was ever publicly identified with the crime, but by many it was said that the criminals were discovered, and that prosecution was abandoned because of the high position of some of the accomplices in the transaction, the object of which was, of course, the depression of Marietta & Cincinnati stock by a bear clique." In this case the Telegraph Company acknowledged its liability, and offered to stand the loss caused by the transaction; but as the New York Exchange declared all sales off there was no loss, and the Company was releived.

THE English newspapers are now building largely on the cheap wheat to be hereafter brought from Siberia by the opening of a sea route. The Truth says that trade with these northern regions will be immediately encouraged, and that "immense quantities of wheat, tallow, hemp, flax and brandy will be sent from Siberia for a market as soon as navigation reopens. Siberian wheat will become an important factor, as it is stated that it can be sold in London at considerably less than either Russian or American wheat." The trade of Siberia will need years of careful nursing before it will rival the trade of America. The people must first go there, the wild lands must be cleared, and the practicability and safety of the northern sea route must be demonstrated by years of experience.

Sweet Potatoes vs. Irish Potatoes.

Col. J. Turner Morehead, of the Leaksville cotton factory will attend a meeting of the Cotton Manufacturers of the United States at Boston, Mass., in July next. He is now corresponding with Commissioner Polk in regard to the substitution of the sweet potato in lieu of its Irish brother as a very important element in the manufacture of cotton goods.

If successful in their investigations he will bring the matter to the attention of the cotton manufacturers at their meeting.

The Irish potato contains a large per centage of starch, which is one of the essential parts of cotton manufacture.

It is used to such an extent that over 30,000,000 bushels were consumed last year for this purpose. It is thought the sweet potato will yield as large a percentage of starch, and being so much cheaper in its production and more prolific in its yield, it will easily become a substitute.

This would create an immense demand for this important southern product and open up to the South a very extensive and profitable traffic in a vegetable that now commands a limited and uncertain sale. The sweet potato yield in 78 counties of this State last year averaged 83 bush to the acre. The total product being 3,834,453 bushes. In certain localities as many as 600 bushels per acre were raised. It would be safe to estimate that by proper cultivation, the eastern portion of North Carolina, would produce an average yield of 200 bushels per acre (and the total yield would reach 8 to 10,000,000 bushels annually. The cost of production would not exceed 15 cents. The market price has averaged 40 cents per bushel for years past but the large quantity would probably reduce it to 30 cents. It will at once be seen that this would be the most profitable crop the farmer could raise.

Dr. Ledoux, the State Chemist, is now analyzing the sweet potato and the result of his experiment will be looked for with eager expectancy.

So far no information has been gathered on this point from any of the books of reference.

THE STYLE IN N. Y.

DECORATING MAINIA—EVEN TO THE UNOBTRUDING BUTTON—A WORD ABOUT SILKS—THE SUMMER PEKINS—JAUNTY SUITS &C.

Correspondence of the News.

NEW YORK, March 18, 1879.

There exists just now a passion for decoration. The prevailing conversation is concerning high art and decoration. It is an age of decoration—our houses, our furniture, our bric-a-brac, everything is decorated—and our fashionable belle, not to be behind the times, must have her toilettes elaborately painted by skillfull artists. At a recent ball the most artistic costume was white satin exquisitely painted in a design of scarlet tuschias, and blue convolvuli, with graceful tendrils and leafage in shaded brilliant yellow greens.

BUTTONS & THINGS

Elaborate sets of buttons of silk, satin of velvet are dexterously painted by competent artists, each button being ornamented with a different design—a flower, bird, bug or fan, etc.; and a lady whose toilette is garnished with a set of some fifty of these

IXL.

really skillfully painted buttons carries no insignificant art collection around with her, Ribbons in exquisitely painted designs, of half open roses and buds, in delicate pink tints, gorgeous scarlets, and pale yellow shades are shown for bonnet trimmings, and will be worn by the elegantes. And what is not painted? Every other young lady one meets is decorating something for herself, or some friend, from a clay pipe to a dinner service.

SILKS.

Among the grandest and most luxurious of these rich materials, are brocaded stripes, in all the new colors, alternating with more or repped stripes, about an inch in width, but for the ultra fashionable they are shown four inches wide and are strikingly handsome. Moire or watered silk is again taking rank among the leading fabrics; and damasses in light qualities retains its hold on fashionable favor. Satin repped stripes come in plain and in contrasting colors, such as old gold and Sevres blue and are a favorite choice for rich evening dresses. Soft, heavy, plain silks are always in the mode, and are shown in all the new quaint shades. The sapphire blue, which is a compromise between the blue and the green, will be the select color of the season, and much affected by the leaders of the ton. It is vivid without being glaring, and very distinguished in effect, and an almost universally becoming color.

THE SUMMER PEKINS

decidedly new are the velvet and satin pekins for summer, which are "grand style." The summerish part of these fabrics are the open work stripes, which alternate with stripes of velvet and satin.

JAUNTY STEET SUITS.

Charmingly coqultish and picturesque are the new street suits, with their high drapings and side decorations and jaunty jackets or mantelets; for with short dresses comes again the introduction of the full costume, including the wrap of the same material as the dress. And, too, it is considered hautton to have the parasol made of the same material as the costume Not only are the solid colors used for these parasols, but the stripped and figured fabrics as well; indeed it seems decreed that no suit shall be considered complete, unless it has the parsol to match. They are lined with some becoming color, and may be trimmed with lace or fringe, or the edge is left quite deep and pinked. Still another charming innovation is to have a dainty little chatelaine bag made to match the dress, and elaboraeely mounted in French gilt, oxodized silver or steel. In plain colors some of these artistic little affairs re-embroidered in silk of a deeper shade; but in striped or floriated patterns they are without ornament save the mounting. The brightness and color which enlivens the costume is seen in the hat, in a garland of gay poppies, a wreath of foliage, or masses of oriental colored ribbon, dusted with gold or silver. The latest models in walking dresses come shorter, reaching only to the heel of the boot in the back, and displaying the foot in front—a fashion likely to take with ladies who are the fortunate possessors of small feet.

Spirit of the State Press.

KEEP IT AT HOME.

Fayetteville Gazette.

And above all, keep your money at home. Better buy a home-made table at a low price, than send to some Northern market for an article no whit better at a greater price; better purchase a carriage or wagon made in our own midst than "jump at a bargain" offered by some shoddy concern in Cincinnati or Chicago; better give the profit on a barrel of flour, or a ferkin of butter, or a box of hams, to our own people, than to pursue the narrow policy of sending North to save a dollar or two in cost.

THE DOGS.

Milton Chronicle.

Now, why were not dogs taxed? Simply because gentlemen in the Legislature were afraid to tax them. It was all right, however, to tax hogs, sheep, cattle and horses—they could vote for this—but they hadn't the nerve to tax the worthless curs that live only to kill sheep and eat up provisions that would fatten half the hogs in the State. It booted nothing that the tax was needed to educate the poor children of the State—it was deemed more advisable to let these poor children grow up in shameful ignorance. Alas, for the statesmanship of the age!

AN EXCELLENT CONNECTION.

Goldsboro Messenger.

The Harnett Railroad would make an excellent connection if consolidated with either the Atlantic & North Carolina Road or with the projected Goldsboro, Snow Hill and Greenville Road. The road, though short, would run through four counties—Wayne, Sampson, Johnston and Harnett. The country is level and easily graded. We assure the friends of this proposed road that Goldsboro will not be blind to her interest in this matter.

WHAT DOES IT AMOUNT TO.

Wilmington Star.

We are unable to state how much was saved by our own Legislature in the way of retrenchment. We should like to see a tabulated statement of what was actually saved. We have an impression that no great things were accomplished after all the blowing. One appropriation was $750 for servant hire for the capitol. Before the war one servant was enough. Now it requires five servants we suppose. But we cannot estimate the value of the work done without a statement of its labors before us. Some reform bodies pour in at the bung whilst the stream runs from the spigot. The Reformers may have cut down in places—some of them of no great importance—whilst neglecting to attend to the great leaks. Sooner or later the exact saving will be known, and by this the Reformers will be judged.

THEY DID WELL.

Robesonian.

Of course their actions will be criticised by the press and the people. They did a good deal, and left a good deal undone; and, upon the whole, they will compare very favorably with any of the Legislatures we have had since the war. They have passed some splendid laws; the one in regard to the State debt, if it will be accepted by the bond holders, settles a vexed question, and their determination in meeting this issue squarely is commendable.

MORE AND BETTER

Shelby Aurora.

The Legislature adjourned on Friday the 14th inst., working one week without any compensation at all, and the members did more and better work during that time than they did during the entire session. Our members from Cleveland during the entire session remained at their posts and, as a general thing, they were always found advocating retrenchment and reform and opposing all unfair and unjust measures that were calculated to oppress the people.

THE PATRIOTIC LEGISLATURE.

Tobacco Plant.

The Legislature adjourned on last Friday at 2 o'clock after finishing up all matters of importance. We had the pleasure of witnessing a thing that was never before seen in North Carolina, a Legislative body at work without pay. The sixty days, the limitation according to the constitution, expired and the work was not completed. So our Legislators had patriotism enough to work without pay till the work was completed.

THE FENCE LAW.

Winston Sentinel.

Even with the present fence law, and the heavy cost entailed by it, the depredations of stock are not prevented. There are very few fences so secure as to effectually protect the growing crops. Consequence is, that a loss of many bushels of grain annually from this cause, representing hundreds of dollars, might safely be added to the cost of fencing, in order to correctly represent what the present fence system cost.

THEN AND NOT 'TIL THEN.

North State Press.

Peace, peace! has been the constant try, but their will be no abiding peace, until the South, by peaceful methods, conquers a peace, and this she can only do by standing solidly Democratic, and with the aid of such true-hearted and noble allies as Thurman, Bayard, Hendricks, Voorhees and a host of others, she will dictate its terms in the Capitol itself. Then will wranglings, criminations and recriminations cease in the land, and meek-eyed peace will shed her smiling influences over us. Taunts, jeers and gibes will be hear no more forever, but in their stead charity, good-fellowship and brotherly love will be the spirits to animate us, direct and control all our acts. That we are upon the eve of such a time, we have an abiding faith.

The Right Course.

Philadelphia Times.

If Randall would prove himself eminently worthy of the great victory achieved for him he will enter the chair with all the bitterness of the strife behind him, and he will summon North and South, friend and foe, to the great work of ripening the Democratic harvest that has blossomed so hopefully by the election.

Vegetine

FOR

CHILLS, SHAKES,

FEVER AND AGUE.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—

Der Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like the most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints I think it is the greatest medicine in the world.

Respectfully, MRS. J. W. LLOYD.

VEGETINE.—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

Vegetine

FOR

DYSPEPSIA, NERVOUSNESS, AND

GENERAL DEBILITY.

BERNARDSTON, MASS., 1878.

We, the undersigned, having used Vegetine, take pleasure in recommending it to all those troubled with Humors of any kind, Dyspepsia, Nervousness, or General Debility, it being the Great Blood Purifier. Sold by R. L. Crowell & Sons, who sell more of it than all other patent medicines put together.

MRS. L. F. PERKINS,
MRS. H. W. SCOTT,
JOSEPHUS SLATE

Vegetine is the great health restorer—composed exclusively of barks, roots, and herbs. It is very pleasant to take; every child likes it.

VEGETINE.

FOR

NERVOUS HEADACHE

and Rheumatism.

CINCINNATI, O., April 9, 1877.

H. R. Stevens Esq.:

Dear Sir,—I have used your Vegetine for Nervous Headache, and also for Rheumatism, and have found entire relief from both and take great pleasure in recommending it to all who may be likewise afflicted,

FRED. A. GOOD,
148 Mill St., Cincinnati.

Vegetine has restored thousands to health who had been long and painful sufferers.

VEGETINE

Druggists' Testimony.

Mr. H. R. Stevens:—

Dear Sir,—We have been selling your remedy; the Vegetine for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge It certainly is the ne plus ultra of renovators.

Respectfully,
E. M. SHEPHEARD & CO., Druggists,
Mt. Vernon, Ill.

Is acknowledged by all classes of people to be the best and most reliable blood purifier in the world.

Sanford's Series Analytical Arithmetics

AND

Worcester's Dictionary

Sanford's Series comprises four books, and is based upon the analytic system:

Sanford's First Lessons in Analytical Arithmetic, 16 mo., 27 cents.

Sanford's Intermediate Analytical Arithmetic, 16mo., 332 pp. Half bound, 45 cents.

Sanford's Common School Analytical Arithmetic, 355 pp. Half roan, 80 cents.

Sanford's Higher Analytical Arithmetic, 8vo., 419 pp. Half roan. Cloth sides, $1.25.

The definitions are clear, and the analyses exhaustive. The work is practical, and abounds in slate exercises. The experience of a large number of the best teachers in this country, is that, with Sanford in hand, pupils discover an unwonted enthusiasm in studying the science of numbers.

The Complete Series of Worcester's Dictionaries.

Quarto Dictionary. Illustrated and Unabridged. Library sheep, $10.

Octavo (Universal and Critical,) Dictionary. Library sheep, $4.25.

Academic Dictionary. Crown 8vo. Half roan, $1.85.

Comprehensive Dictionary, Illustrated, 12 mo. Half roan, $1.75.

School (Elementary) Dictionary. 12mo. Half roan, $1.

Primary Dictionary. Illustrated 16mo. Half roan, 60 cents.

Pocket Dictionary. Illustrated 24mo Cloth 63 cents; roan, flexible, 85 cents, roan, tucks, gilt edges, $1.

Many special aids to students, in addition to a full pronouncing and definitive vocabulary, make the above-named books, in the opinion of our most distinguished educators, the most complete as well as by far the cheapest Dictionaries of our language.

Worcester's School Dictionaries are based upon the quarto, which is preferred over all others by eminent scholars and men of letters. The series is admirably adapted to use in Schools, Academies, &c.

Liberal terms for introduction We desire that Sanford and Worcester be examined by county Boards and principals of private schools. Correspondence solicited.

We invite attention of Teachers to Chauvenet's Mathematics, Cutter's Physiology; in a word, all our School publications. Circulars and descriptive catalogue furnished on application.

VEST POCKET CURE

25 DYSPEPSIA 25

CLERGY & DOCTORS TESTE

It is an excellent corrective of Indigestion. I have used it with prompt beneficial results.

Rev. Dr. Mangum, Prof. Univ. of N. C.

I concur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.)

It is endorsed by the direct personal testimony of men of national fame and strictness of speech It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Baptist Religious Herald, Va.

Chaplain Randolph Macon College, Va.

Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics, Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are unum rabls.

Rev. R. L. Dabney, L. L. D. Ham. Sid. Col., Va.

It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and Flatulent Colic, sedative, soporific, tonic, slightly aperient, without nausea.

Rev. B. F. Woodward, P. E., Na. Conf,

About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and bodily comfort I have had for the last sixteen years. I have known many simple to be relieved by its use.

Rev Robert W. Watts, A. M., Va.

I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew For protration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.

It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in families from indigestion, I use it and recommend it.

Editor Richmond Christian Advocate.

This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our National Disease. The ingredients are not kept by the apothecaries, and have been difficult to get.

DAILY NEWS.

FRIDAY, - - MARCH 21, 1879

A Memory.

If he had come in the early dawn,
When the sunrise flush-d the earth,
I would have given him all my heart,
Whatever the heart was worth.

If he had come at the noontide hour,
He would not have come too late;
I would have given him patient faith,
For then I had to learned to wait.

If he had come at the noontide hour;
He would not have come too late,
I would not have given him hands and brains,
And worked for him till I died.

If he comes now the sun is set,
And the light has died away,
I will not give him a broken life,
But will turn and say him "Nay."

A Haunted Husband.

Brooklyn Eagle.

Somebody once had the temerity to assert that however much we lament the departure of friends to the spirit world few people are desirous of having them back again, a post mortem condition of things in regard to social relations and property having been once established. Enoch Arden understood the inconvenience a disclosure of his presence would produce, he having been given up for dead, and wisely kept himself in the background. He would have made a model ghost. Not so the late Mr. Gunzer, if we may credit the story told by Mr. Dierking, the successor of Mr. Gunzer in the affections of the widow. We have all heard of Gunzer's telling fate. Gunzer was found murdered in his bed in Williamsbugh some two years ago. It was strongly suspected that the discousolate widow had something to do with Gunzer's end, but after much investigation the authorities allowed the woman to go free, all attempts to fasten the crime of her having failed. She succeeded to the management of the saloon which her husband kept, and in time became the wife of Mr. Dierking. There is a difference of opinion as to who did the courting in this second matrimonial venture. The course of the second handed love did not run smoothly, there being a suit for abandonment on the part of the wife and one for divorce on the part of the husband—the former alleging that she was courted by proxy, and Dierking affirming that the woman made the advances, offering him a home and no work to do if he would become to her that necessary household ornament, a husband. However that may be, Dierking, after a short marital experience fled to a neighboring State. In the legal complications which followed the reason for Dierking's hasty departure from his spouse is disclosed. The dead Gunzer has made protest against the Dierking's occupying his place. Although a blessed ghost, he has found means to revisit the glimpses of the "moon" and to make things unpleasant. On several occasions the spirit of the murdered Gunzer "materialized"—so Dierking says—after a repose of eighteen months in the grave, and warned the frightened substitute to leave Mrs. Gunzer. The ghost, according to Dierking's narrative, was covered with blood, and was a frightful object to behold. To be sure this is not the only reason which Dierking gives for wishing to be divorced, although one would imagine it to be sufficient. Our acquaintance with the laws of divorce is not sufficiently extensive to enable us to say just what degree of legal importance attaches to the prior claim of a spirit, but the inconvenience of possessing a partner with post mortem attachments is sufficiently apparent. To be sure, it might be a question of public policy whether ghostly visitations should be allowed to constitute a sufficient cause for divorce *a vinculo matrimoni* on account of the difficulty of proof and the probability that discomted husbands would be prone to see visions in the reality of which juries and defending wives would have doubts, but it seems to us that it would be safe under all the alleged circumstances, to take Mr. Dierking's story for true, and at least grant him a separation *a mensa et thoro* from this spook loved Mrs. Dierking.

OldSimon the Sillier.

Brooklyn Eegle.

The suit of the fair and fascinating widow Oliver against ex-Senator Simon Cameron for breach of promise of marriage has already begun to attract a little of the attention which the closing of the recent contest at Gilmore's Garden left unoccupied. The fact that Benjamin Butler has been retained by Mr. Cameron to protect him against the dreadful widow would indicate first that he expects war of the most uncompromising ferocity, and second that the case will be exceedingly lively. The first discovery that any woman in the world had a claim upon the aged Senator which would bear investigation was received with considerable amusement and incredulity, for what Washington maguate could be suspected of permitting his elderly emotions to run away with his discretion? Mr. Cameron, moreover, had outlived several generations of widows, and was presumably acquainted with all the depths and shoal of feminine character. That he should have compromised himself, therefore, with a widow above all persons, was the more extraordinary, for Mr. Cameron is familiar with statistics, and figures prove conclusively that matrimony is the normal condition of widows and that they are proner to that state than any other class of ladies.

Conkling and his Neck-ties.

Washington Cor. Springfield Republican.

Roscoe Conkling's eccentricity is in neck-ties. In other respects the senator dresses in excellent taste. He evidently gets his idea of ties from the American flag, for they are almost invariably either red, white or blue. When the senator came back here at the beginning of the last session he wore a white tie, and, under his blonde hair, it gave him quite an ethereal aspect. He was then playing the role of the generous foe, and was apparently quite inoffensive. But later, when he began to gather himself up for the war upon the President, he put on his red tie, the ensign of battle. Lately, however, he has worn mostly the blue, as being symbolical of the state of his feelings. He will probably continue the blue for some time to come. If Grant is nominated in 1880, we shall perhaps see the senator with a neck-tie of all three colors blended in brilliant harmony.

A Fearful Warning.

Omaha Republican.

The crisis is portentous, but the people are awake to the danger and equal to the occasion. Grant conquered the former rebellion with a million men; he has lately conquered Europe without firing a gun, and has stepped over to subdue Asia; on his return he will be placed at the head of fifty millions, and secessionists, copperheads and bulldozers will haste to hide themselves in the last ditch.

MEDICINES.

45 Years Before the Public.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S [illegible]

Also the name McLANE'S LIVER PILLS [illegible] signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile every time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. Dr. PEMBERTON'S STILLINGIA — QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Syphilis and Mercurial diseases is reasonably founded, and the cure Cancer. $10,000 will be paid the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

DAILY NEWS.

FRIDAY, - - MARCH 21, 1879

News Telegrms.

Congress.

WASHINGTON, March 20—SENATE—After a prayer by the Chaplain and the reading of the journal by the Secretary, Wallace moved that the Senate now adjourn. He withdrew his motion at the request of Anthony, who moved when the Senate adjourn that it adjourn until Monday. This was disagreed to and the Senate adjourned until to-morrow.

HOUSE.—After reading of the journal, McMahon, of Ohio, called up a petition of certain citizens of Cincinnatti in relation to the election of Butterworth and Young, of Ohio. The debate which followed was principally confined to discussion of the respectability of the memorialists. A resolution was adopted referring the whole matter to a select committee of members, with leave to sit during recess, &c., and directing said committee to inquire into the operations of the Supervisors law in Connecticut at the last election. The House then at one o'clock adjourned and the Democratic caucus was announced to take place immediately.

The Democratic Caucus.

WASHINGTON, March 20.—A caucus of the Democratic members of the House of Representatives was held today for the purpose of considering the order of business and the measures to be taken up during the present extra session of Congress. The sentiment of the caucus, so far developed, favored confining business to the present appropriation bills. There was no dissent whatever to the adoption of the provisions similar to those heretofore, to these bills, namely: The prohibition of troops at the polls on election days, the repeal of the jurors test oath and the employment of supervisors of elections. The question whether such provisions should be attached to the appropriation bills or embodied in independent bills, together with the order of business, was referred to a committee of eleven to be appointed by the chair, who will confer with the caucus committee of 9 of the Senate to report at an adjourned meeting of the caucus.

Rev. Joseph G Bullock, of Alexandria Va., was nominated for chapiain at the Democratic caucus of the members of the House of Representatives to-day. The order of business proper to be considered during the session was considered.

Democratic Caucus.

WASHINGTON, D. C., March 20.—The caucus of Democratic Senators this morning nominated Col. John C. Burch, of Tennessee, to be Secretary of the Senate, the result was reached on the 5th ballot when Burch received 24 votes; Harvey Watterson, of Kentucky, 13; Ex-Congressman Senger, of Pennsylvania, 1; Ex-Congressman Franklin, of Missouri, 20. Watterson, received 19 votes on the first and second ballots, and thus came within 2 votes of obtaining the nomination, there being 40 Senators present at the caucus. The caucus will reassemble and ballot for the remaining officers after the Senate adjourns this afternoon. A complete vote on the first ballot was, Watterson, 19; Burch, 6; Ex-Senator Dennis, 6; Franklin, 2; Senger, 1; Ex-Congressman Waddell, of North Carolina, 3; Professor McMahon, of West Virginia, 2; Purcell, of New York, 1. Total 40. The only Democratic Senators absent were General Gorden who is ill, and General Hampton, not yet arrived from South Carolina.

A. J. Bright, of Indiana, was nominated for Sergeant-at-Arms of the Senate on the third ballot in the Democratic caucus.

The Educational Bill.

LONDON, March 20.—The preface of M. Jules Ferrys education bill, brought forward in the Chamber of Deputives, states that according to the existing law, foreigners are not allowed to teach in France, and declares that some exclusion should apply to an order essentially foreign by the character of its doctrines, nature and aim and its statutes.

The Paris correspondent of the Times remarks that this passage of course refers to Jesuits, who have 27 colleges in France with 848 teachers.

Twenty-six other communities having 61 establishments and 1089 teachers are also unrecognized by the State and they will consequently be deprived by the bill of the right of teaching. It is presumed that if the bill passes disqualified orders will transfer their establishments to those recognized by the law but there will be a bitter struggle before the clause becomes a law.

The Deadly Pistol Again.

NEW ORLEANS, March 20.—The special despatch to the Times from Marshall, Texas, says that last night after the Ward Barrymore Combination had finished playing, the Company went to the depot to await a train. Maurice Barrymore, B. C. Porter and a female attache of the Combination were in a lunch room when James Currie, a detective, entered and made slighting remarks about the lady, to which exception was taken by Barrymore and Porter. After some words Currie drew a pistol and shot Porter in the abdomen, killing him almost instantly, then turning, he shot Barrymore through the elbow, the ball coming out under the left shoulder and making a severe if not dangerous wound. Porter and Barrymore were unarmed. Currie was arrested and placed in jail.

A Running Match.

NEW YORK, March 20.—On Saturday evening a running match is to take place between Little Simpson, one of Rowells trainers who has 10 mile record, of 57 minutes 20 seconds;—No man Taylor of Vermont whose record for 10 miles is 58 minutes 6 seconds; and for 20 miles 2 hours 03 minutes 06 seconds; and Joseph Owen, Fredericksburg Va., whose best 10 mile record is 58 minutes 46 seconds. The first man is to run 10 miles and the others 20 miles.

I have saved all my papers, twenty-one geographical charts, many typographical maps, three volumns of notes, meteorological studies, drawings and diary of the complete explorations of the Upper Zambesi with its 72 cataracts.

The Poindexter Trial.

RICHMOND, VA., March 20.—The Hustings Court was engaged for several hours to day in effort to make up a Jury in case John E Poindexter charges with the murder of Curtis. Only one juror obtained out of one hundred and nine.

The Warlike King.

CALCUTTA, March 19.—The intelligence published here from the Burham States, that the King is constructing the fortified works and making another war-like preparations. The King also it is assented has summoned the Burmess residents of Ranyon to return to their own county threatening and have their families executed. Cause, the non compliance. This conflicts with the official news record yesterday.

Nominations in Rhode Island.

FATAL AFFRAY AT CHRISTIANSBURG DEPOT, IN MONTGOMERY COUNTY—A YOUNG MAN SHOOTS AND KILLS A STRANGER—DETAILS OF THE AFFAIR.

Special telegram to the Dispatch.

CHRISTIANSBURG, Va., March 19.—There was a tragic affair at Christiansburg depot, a mile from the town, Monday evening. The passenger train from the east arrives a little after 6 o'clock in the evening, and stops for supper. Monday evening a man who came by the train, when he had gotten his supper, went into the barroom of the Wilson House and called for a drink. Young Mr. Waller Wilson, who tends the bar for his father, gave him a drink, and the stranger handed him twenty-five cents in silver in payment. Mr. Wilson offered him ten cents in change, but he refused it, and demanded five cents more. Wilson told him the price of a drink, was fifteen cents, and that he had given him the right change. Thereupon he commenced curse and threaten Wilson, until Wilson told a negro who was in the barroom to go out and call an officer, as he did not want to have any trouble with the man. This enraged the man, and he at once went around the couter and attacked young Wilson, striking him several times with his fist. Wilson retreated to the end of the counter with a pistol in his hand, which he had taken from a shelf as soon as the man advanced on him. When he had reached the end of the counter, and was against the wall, he fired. The ball struck the man on the end of the nose, and, ranging upward, penetrated the brain. The man fell, and in about half an hour expired. He turned out to be a Mr. Isaac Reese, of Giles county, and it is said he leaves a wife and several young children. He was a large, athletic man, and was under the influence of liquor when he entered the bar-room. Wilson is scercely twenty-one year old, and small. Wilson delivered himself up promptly, and was put in jail here. At the coroner's inquest this morning a verdict was found in accordance with the facts. Young Wilson had his preliminary examination before three magistrates this evening in the court-house here. He was sent on for indictment, and admitted to bail in the sum of $1,00.

A MUNICIPAL GOLGOTHA.

Why New Orleans has Yellow Fever.

New Orleans Times.

The Locust Grove Cemeteries—Nos. 1 and 2—occupy two squares of ground between Sixth and Seventh, Locust and Willow streets, and front on Sixth street. The neighborhood is comparatively thickly settled, especially on the northern and western sides of the cemeteries. The residents complain of the cemeteries because there constantly arises therefrom an abominable stench which pervades the atmosphere, forces itself into the dwellings near at hand, and, in addition, attracts swarms of flies, which, after feasting in the graveyard, come into the sleeping and dining-rooms of the houses. These cemeteries are the burial grounds of several distinct classes of people; the dead from the parish prison are buried there; the dead from the boys' house of refuge, from the city insane asylum, from the home for the aged and infirm, from the small pox hospital, and from two or three institutions for the colored people, all the pauper dead of the city, all the dead buried by the two Coroners, all the Coroners' cases and indignant dead from Algiers, and all poor and non-Catholic white and colored people whose friends cannot pay for a better place, are there rammed and jammed up together until not an inch of the ground is unoccupied. Thus, it is seen, these two small graveyards are the only places interment open to the dead of about sixty thousand persons, among whom for several causes, the mortality is very great.

Yet, although the two yards are filled to the very gates, the interments continue as rapidly as ever. To make room for the new corpses the oldest denizens of this city of the dead must be dug up and used to assist in covering others in turn. It is calculated that in eight or nine months at the farthest, both cemeteries are completely renewed; accordingly, now the time has come for the resurrection of the victims of the late epidemic.

The Danger of Kerosene Lamps

In view of the fact that Kerosene oil is now so generally used for lights, especially since the rise in the price of gas, the following from a medical journal is particularly worthy of attention. A merchant returned home about 2 o'clock at night and found his wife lying on the bed groaning heavily, and unconscious. She was awaiting his return, and at last tired out, laid herself on the bed, after turning down the wick of a lighted kerosene lamp as low as possible without extinguishing it. In this position of the wick, if the oil is bad, a vapor mixed with an innumerable quantity of specks of sut diffuses itself through the apartment and so covers the eyes, nose and respiratory organs, that on falling asleep one runs the risk of suffocation. It is always advisable, therefore, in the use of kerosene lamps to allow the wick to burn brightly or extinguish it entirely.—Charlotte Observer.

Pratt's Astral oil is absolutely safe under all circumstances. Burns in any lamp without smoke or smell. Julius Lewis & Co., sole agents, Raleigh, N. C. *

The Celebrated Seven Spring Iron and Alum Mass

This is decidedly the most useful, besides being the most efficient Family Medicine ever placed within the reach of any people. Its reputation extends far and wide, and its great popularity is due entirely to its own merits. For relieving Sick and Nervous Headache! it may be truly said, to have no equa. Dyspeptics find it just the remedy for their troubles. Mothers and daughters have long since discovered in its use a "panacea" for their worst ills; and now we have the testimonies of two eminent ministers of the gospel, from Southern cities, settiug forth its specific effects in other more dreaded and troub'esome diseases.

Rev. John F. Mayne, Theological Seminary, Columbia, S. C., writes: "Am afflicted with that terrible disease, 'Diabetis;' am using the 'Seven Springs Mass' with considerable degree of relief; is the only remedy I have yet found to suit my case; want to continue its use until a cure is effected if possible. Send worth of the enclosed P. O. order immediately.

LANDRUM & LITCHFIELD.
Abingdon, Va.

Mar. 10.

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late that a fever or lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the throat and lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades,
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adornyour forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids your all adieu
And wishes a happy new year too.

A Remedy that has been remedied.

The invincible repugnance felt by almost every one to the smell and flavor of Cod Liver Oil, has prevented tens of thousands of the victims of debility, from reaping the benefits of its peculiar healing and nutritive properties. The almost hopeless consumptive, the martyr to Rheumatism, the barely living shadow of men, women and children that emerge from the clutches of malarial fevers, all of these know, or at least their doctors know, that of all discovered remedies, this Oil is the best, and often the only one that will build up their wasted bodies, and and restore their shattered nerves, and far more effective than the Oil by itself is Scott's Emulsion of it, with the Hypophosphites of Lime and Soda. This is the finest and most natural food and medicine in the world, and wholly deprived of its disagreeable qualities. Sold by Wm. Simpson, Druggist. March 4-d&w3w

TO THE PUBLIC.

It will gratify the many friends and customers of the house of Petty & Jones to know that its affairs are in sound and healthy condition.

They have always, are now doing, and will continue to pay one hundred cents in the dollar. (100 cents to $1).

They claim praise for doing so in a time of such financial stringency, insolvency, and compromise.

They set their faces like flint to do this as a matter of high commercial principle

They are doing a largely increasing and increased business.

Their JOBBING TRADE has showed a large advance.

They have sold more goods by the case, package, and piece, the past season than ever before.

The management is strictly on the plan of the large and successful dry goods houses of our large cities.

They buy often At first hands. Pay cash and are receiving new goods every week.

They will from this time be in receipt of a varied assortment of select goods of the best makes suitable for the market to which they invite the attention and inspection of buyers, wholesale and retail.

FROM A PROMINENT VETERINARY SURGEON.

Mr. Wm M. GILES, Chemist, Sir: I have practiced extensively in Europe and America, and your new discovery, Liniment Iodide of Ammonia, surpasses anything I ever used for spints, strains, lameness in the limbs or shoulders, weakness across the kidneys, wind galls, and hard, bony swellings on the joints. It is truly marvelous.
Yours very truly,
